CONTENTS OF VOLUME XXXIV.

NUMBER I.

PAGE

Report of a Case of Temporo-Sphenoidal Abscess, with Streptococcus Infection. Operation and Recovery. By FRANKLIN M. STEPHENS, M.D. 1

Two Cases of Temporo-Sphenoidal Abscess. Operation; Recovery. By ROBERT LEWIS, Jr., M.D. 7

Three Cases of Lateral Sinus Thrombosis. By ROBERT LEWIS, Jr., M.D. 11

The Radical Operation in Chronic Middle-Ear Suppuration. By Dr. EDWARD BRADFORD DENCH, M.D., New York . . 15

Double Mastoiditis, Followed by Diphtheritic Exudation with Fatal Result. By HENRY HORLBECK, M.D., Columbia, S. C. 28

On the Statistics of Otitic Diseases of the Brain, Meninges, and Cerebral Sinuses. By Dr. TAKABATAKE. Translated by Dr. ARNOLD KNAPP, from *Zeitschr. f. Augenheilk.*, Vol. XLV., No. 2 32

On Adenoid Cachexia: I.—Examination of the Blood in Children before and after the Removal of Adenoid Vegetations. II.—Does Cyclic Albuminuria Frequently Occur in Children with Adenoid Vegetations? By Dr. TAKABATAKE. Translated by Dr. ARNOLD KNAPP, from the *Zeitschrift f. Ohrenhlk.*, XLIV., No. 4. 37

Reports of Societies:

1. **Report of the Transactions of the New York Otological Society.** By Dr. ARNOLD KNAPP, Secretary. Meeting of November 22, 1904 40

BERENS: Skin-grafting after radical operation, 40. DUEL: Epidural abscess in a case of chronic purulent otitis, 41. GRUENING: Severe sinus thrombosis without symptoms, 42. GRUENING: Double mastoiditis, 43. TOEPLITZ: Legal cases, 46.

2. **Report of the Transactions of the Section on Otology of the New York Academy of Medicine.** Meeting of November 10, 1904 48

LEWIS: Two cases of temporo-sphenoidal abscess (published on pp. 7–10 of this issue), 48. STEPHENS: Acute temporo-sphenoidal abscess (published on pp. 1–6), 48. Discussion, 49. LEWIS: Three cases of lateral sinus thrombosis (published on pp. 11–14), 50. BRYANT: On the value of the present quantitative tests for hearing, with demonstration of a new apparatus (published in vol. xxxiii., p. 438), 51. Discussion, 51.

Report on the Progress in Otology during the Fourth Quarter of the Year 1903. By Dr. ARTHUR HARTMANN, Berlin. Translated by Dr. ARNOLD KNAPP. (*Concluded from p. 545, vol. xxxiii.*) 54

Nervous apparatus, 54. Nose and naso-pharynx, 55. Soft palate, pharyngeal and buccal cavities, 66

NUMBER 2.

The Distribution of Blood-Vessels in the Labyrinth of the Ear of the Sheep and the Calf. By GEORGE E. SHAMBAUGH, M.D. (With three figures on Plates XXI. and XXII., from German Edition (*Zeitschr. f. Ohrenheilk.*), Vol. XLVIII., issued Nov., 1904) 71

The Anatomy of the Child's Ear, Emphasizing Points of Practical Importance. By Dr. W. SOHIER BRYANT 80

The Pathology of the Infant's Ear Underlying Aural and General Disease. By JOSEPH A. KENEFICK, M.D. 84

Otitis Media in Children. By A. JACOBI, M.D., LL.D. 90

The Operative Treatment of Diseases of the Ear in Childhood. By EDWARD BRADFORD DENCH, M.D. 102

Reports of Societies:

1. **Report of the Transactions of the Section on Otology, Regular Meeting of the New York Academy of Medicine, December 1, 1904** 116

Symposium upon Ear Disease in Childhood: The anatomy of the child's ear. Dr. W. SOHIER BRYANT (published on p. 80). The pathology of the infant's ear. Dr. J. A. KENEFICK (published on p. 84). The inflammations of the ear in children. Dr. A. JACOBI (published on p. 90). The operations on the ear in children. Dr. E. B. DENCH (published on p. 102). *Discussion*, 117.

PAGE

2. **Report of the Transactions of the New York Otological Society.** By Dr. ARNOLD KNAPP, Secretary. Meeting of January 24, 1905 125

WHITING: Acute otitis complicated with pneumonia, 125. HASKIN: Fistula in post-meatal wall after mastoiditis, 126. BRANDEGEE: Abnormal development of the zygomatic cells, 128. PHILLIPS: Extensive operation for chronic purulent otitis; nerve anastomosis in facial paralysis, 128. ARNOLD KNAPP: Severe vertigo due to caries of the labyrinth cured by operation, 131.

Report on the Progress in Otology during the First Quarter of the Year 1904. By Dr. ARTHUR HARTMANN, Berlin. Translated by Dr. ARNOLD KNAPP 132

Anatomy and physiology, 132. General, 136. External ear, 142. Middle ear, 143.

Book Reviews 172

I.—**The Modern Mastoid Operation.** By F. WHITING, A.M., M.D.

II.—**Die Operative Ausräumung des Bulbus Venae Jugularis** (The Operative Eradication of the Bulb of the Jugular Vein). By Prof. K. GRUNERT.

Obituary 174

Professor A. A. G. Guye, and Professor Louis Jacobson.

NUMBER 3.

A Case of Mastoiditis in an Infant of One and a Half Years, with a Sequestrum Consisting of a Large Segment of the Petrous Portion of the Right Temporal Bone. Removal of the Sequestrum and Stapes; Recovery. By WILLIAM C. BRAISLIN, M.D. 177

Two Anatomical Anomalies Encountered in Living Subjects during the Performance of Mastoid Operations. By WILLIAM C. BRAISLIN, M.D. 180

Some Mooted Points in the Treatment of Protracted Cases of Acute Middle-Ear Diseases and Their Complications. By ALFRED WIENER, M.D. 183

A Report of Two Cases of Acute Otitis Media Suppurativa, Followed by Mastoiditis and Meningitis, and Caused by the Diplococcus Intracellularis of Weichselbaum. By GORHAM BACON, M.D. (With a temperature chart) 191

Report of a Case of Infective Sigmoid Sinus and Jugular Thrombosis Complicated by Lepto-Meningitis. Lumbar Puncture; Subdural Irrigation; Death. By JOHN D. RICHARDS, M.D. (With a temperature chart) 198

PAGE

Reports of Societies:

1. **Report of the Transactions of the Section on Otology of the New York Academy of Medicine.** Stated Meetings of January 12 and February 9, 1905 203

FR. WHITING: Presentation of an encephaloscope with suggestions as to its employment, 203. G. BACON: A new model for teaching otology, 208. G. BACON: Two cases of acute otit. pur.: mastoiditis, recovery; the second, meningitis, death, 209. W. P. EAGLETON: Sinus thrombosis and infective arthritis (MS. not yet received[1]), discussion, 210. S. MCCULLAGH: Thiosinamin for tinnitus aurium, 212. W. P. BRANDEGEE: Double mastoiditis (MS. not received[1]), discussion, 213. OPDYKE: Fatal case of mastoid disease, 215. JOHN D. RICHARDS: A case of sinus thrombosis, lepto-meningitis, lumbar puncture, death, 218. ALF. WIENER: Protracted cases of acute otitis media, 221.

2. **Report of the Transactions of the New York Otological Society.** By Dr. ARNOLD KNAPP, Secretary. Meeting of March 28, 1905 226

Dr. BRYANT presented a patient showing an unusual position of the lateral sinus. Dr. BRANDEGEE showed a little pocket case for emergencies. Dr. BRYANT showed a wood-carver's gouge to be used in mastoid operations. Dr. ADAMS presented two cases of sinus thrombosis, with excision of the jugular vein. Dr. MCKERNON reported on a case of sinus thrombosis with jugular involvement. Dr. BRYANT spoke of deafmutism following ptomain poisoning, and on illusions and hallucinations in chron. otit. med. cat. Dr. GRÜNING had recently observed a fatal case of erysipelas. Dr. BERENS spoke of a case of mastoid symptoms after head injury.

Report on the Progress in Otology during the Second Quarter of the Year 1904. By Prof. ARTHUR HARTMANN, Berlin. Translated by Dr. ARNOLD KNAPP 234

Anatomy and physiology, 234. General, 236. External ear, 243. Middle ear, 245. Nervous apparatus, 253. Nose and naso-pharynx, 255.

NUMBER 4.

Nature and Aim of Objective Measurement of Hearing, and on the Use of the Objective Audiometer. By Professor OSTMANN, Marburg-on-the-Lahn. Translated and Abridged by Dr. J. A. SPALDING, Portland, Me. 267

A Study of the Disturbance of Function in Acute Perforative Otitis Media. By Professor OSTMANN, Marburg. Abridged Translation by ADOLPH O. PFINGST, M.D., Louisville, Ky. (From *Zeitschrift f. Ohrenheilkunde*, XLII., No. 3) . . . 275

[1] Brandegee's article to appear in No. 5. Eagleton's in No. 6.

PAGE

Annual Report of the Oto-laryngological Clinic and Polyclinic (Prof. Siebenmann) in Basel. Compiled by Dr. E. OPPIKOFER. Translated by Dr. A. WIENER, New York. (From *Zeitschr. f. Ohrenheilk.*, Vol. XLII.) 287

Report of Two Cases of Mastoidectomy, Sinus Thrombosis, Ligation and Resection of Jugular Vein; Recovery. By. J. F. MCKERNON, M.D., New York. (With one temperature chart) 298

On the Disadvantages of the Dry-Gauze Dressing after the Operation for Septic Thrombosis of the Lateral Sinus. By H. GIFFORD, Omaha, Neb. 304

Report of the Transactions of the Section on Otology of the New York Academy of Medicine. Stated Meetings of March 9 and April 13, 1905 309

MCAULIFFE: Double radical operation, 309. HURD: Primary tuberculosis of the middle ear, 311. MCKERNON: Removal of gland simulating mastoiditis, 312. HASKIN: Deafness following meningitis, 313. SHEPPARD: An obscure case of deafness, 314. ALDERTON: Proper cleansing of a running ear, 319. COAKLEY: Streptococcic otitis media followed by mastoiditis, 321. GRUENING: Operation for brain abscess, 322. MCAULIFFE: Ossification of the auricles, and External cerebrotomy, 323. MCCULLAGH: Mastoiditis complicated by pneumonia, 323. RICHARDS: Operations upon the sigmoid sinus, 324.

Report of the Transactions of the Seventh International Otological Congress in Bordeaux, August 1 to 4, 1904. By Dr. DREYFUSS, Strassburg. Translated by Dr. ARNOLD KNAPP . 325

POLITZER, GRADENIGO: On the necessity of official instruction in, and obligatory study of, otology, 325. YEARSLEY: Suprameatal spine, 326. DREYFUSS: Action of quinine on tonus labyrinth, 326. MOELLER: Otosclerosis, 326. SNOW: Catarrhal deafness, 326. HEIMANN: Indications for the mastoid operation, 326. DENCH: Radical operation, 326. CASTEX: Injuries of the ear, 326. MOURET: Petrous cells, 327. JACQUES: Aural suppuration with perforation into retromaxillary fossa, 327. VILLAR: Suture of facial to accessory or hypoglossal nerves, 327. MOLINIÉ: Pharyngeal tubal ostium, 327. LAURENS: Aural surgery in relation to vertebral column and base of skull, 327. POLITZER, GRADENIGO, and DELSAUX: A simple and practical acoumetric formula, 328. QUIX: Determination of hearing distance, 333. PANSE: Objective examination of ear, 333. TRÉTRÔP, BONNIER: Hearing measure, 334. DELIE: Tobacco and hearing, 334. LANNOIS: Disturbance of hearing in herpes zoster, 334. ESCAT: Aural migraine, 334. BOULAY and MARC-HADOUR: Psychical element in deafness, 334. BOURGEOIS: On diagnosis of bulbar disturbances of equilibrium, 334. BRIEGER, V. STEIN, and DUNDAS GRANT: Labyrinth suppuration, 335. POLITZER: Pathological changes of labyrinth in chronic purulent otitis, 339. PANSE: Labyrinth suppuration, 339. MOURE: Kinematograph demonstration of patient with disease of labyrinth, 339. ESCAT: Cochlear necrosis, 339.

PAGE

CHAVASSE: Distant otitic extradural abscess, 340. LERMOYEZ and BELLIN: Surgical treatment of acute otitic meningitis, 341. MOURET, LAFITE-DUPONT: Anatomical investigations, 341, 342. MAHU: Mastoiditis in atresia of meatus, 342. BAR: Vesiculo-pustular affection of external auditory canal, 343. KNAPP, SCHMIEGELOW, and BOTEY: Operation and after-treatment of otitic brain abscess, 343. GRADENIGO: Abducent-nerve paralysis an endocranial complication of otitis, 344. TOMMASI: Two cases of otitic brain abscess, 344. MOURE and BRINDEL: 500 mastoid operations, 346. POLI: Auricular epilepsy, 346. SZENES: Hysteria due to otitis, 346. BRUDER: Disadvantages of hydrogen peroxide, 347. HOFFMANN: Osteoplastic operation for frontal-sinus empyema, 347. ROURE, KOENIG: On the use of bougies in catarrhal otitis, 347, 348.

Report of the Transactions of the New York Otological Society. By Dr. T. PASSMORE BERENS, Acting Secretary. Meeting of May 23, 1905 349

TOEPLITZ: Case of cholesteatoma, 349. SHEPPARD: Exfoliation of epithelium in operative cavity, 349. MAY: Case of facial paralysis following intratympanic curettage, 349. KIPP: Gangrene of cerebral hernia, 349. GRUENING: Cerebral hernia, 349. MCKERNON: Discharge of cerebro-spinal fluid from the ear canal, 350. GRUENING: Diphtheria in a mastoid wound, 350. SHEPPARD: Metastatic joint affections, 351. MCKERNON: Septic endocarditis, 351.

Report on the Progress in Otology for the Second Quarter of 1904. (*Concluded.*) By Dr. ARTHUR HARTMANN 352

Diseases of the accessory cavities, 352. Other diseases of the nose, 359. Naso-pharynx, 360. Pharynx and mouth, 361.

NUMBER 5.

Report of a Case of Double Mastoiditis with Extensive Involvement of the Zygomatic Cells. By W. P. BRANDEGEE, M.D. (With one photograph on Text-Plate I.). 367

Secondary Anæsthesia Hemiplegia as a Complication of the Mastoid Operation. By W. B. G. HARLAND, M.D. . . 370

On the Operative Treatment of Infective Sigmoid-Sinus Thrombosis. By JOHN D. RICHARDS, M.D. 378

Report on the Progress in Otology during the Third Quarter of the Year 1904. By Prof. ARTHUR HARTMANN. Translated by Dr. ARNOLD KNAPP 423

Anatomy and physiology, 423. General, 428. External ear, 437. Middle ear, 437. Nervous apparatus, 448. Nose and naso-pharynx, 449. Pharynx and mouth, 463.

NUMBER 6.

PAGE

Communications between the Blood-Vessels in the Membranous Labyrinth and the Endosteum and those in the Bony Capsule of the Labyrinth. By GEORGE E. SHAMBAUGH, M.D. (With two text illustrations and two figures on Plates XIII. and XIV. of Vol. L., German Edition). 469

Report of a Case of Panotitis Resulting in Meningitis, with Pathological Findings. By Dr. GEORGE SLOANE DIXON. (With two photomicrographs on Text-Plate No. II.) 479

Infective Arthritis Complicating Otitis Media. By WELLS P. EAGLETON, Newark, N. J. 483

Double Mastoiditis Complicated by an Intercommunicating Suboccipital Abscess. By HENRY B. HITZ, M.D., Milwaukee . 489

Electrolysis in the Treatment of Chronic Eustachian Stenosis. By FRANK T. HOPKINS, M.D., New York 495

Untranslated Articles from Vol. XLII., "Zeitschrift für Ohrenheilkunde." Abridged Translation, by ADOLPH O. PFINGST, M.D., Louisville, Ky. 502

A tropical affection of the ears, by RICHARD MUELLER, 502. Traumatic atresia of the auditory canal, by Dr. RUDOLPHY, Breslau, 504. The position of the manubrium in the normal drum, by Dr. BRUNZLOW, Rostock, 506. Cerebellar abscess and sinus thrombosis, by Dr. VOSS, Riga, 507. Abscess of the temporal lobe, by Dr. ALBERT BLAU, Görlitz, 509.

Reports of Societies:

1. **Report of the Fourteenth Annual Meeting of the German Otological Society in Hamburg, June 9 and 10, 1905.** By Dr. VON GAESSLER, Erlangen. Translated by Dr. ARNOLD KNAPP 512

HARTMANN: The hard-of-hearing in schools, 512. PASSOW: On school instruction for deaf-mutes, 515. DENKER: Which elements can we neglect in learning the human speech? 517. DENNERT: Acoustic and physiological experiments on the ear, 518. KRETSCHMANN: Associated vibrations of solid and fluid bodies, 519. SCHOENEMANN: Are there relations between form of temporal bone and configuration of tympanum? 521. ALBRECHT: Prognosis of early cases of acute middle-ear inflammation, 522. SCHEIBE: Statistics and treatment of acute otitis media, 522. BLOCH: A new and reliable method of testing the hearing, 523. POLITZER: Changes in the labyrinth in chronic purulent otitis, 523. MANASSE: Labyrinthine chronic progressive deafness, 524. BLAU: Experimental closure of the round window, 525. HEINE: Treatment of acute purulent otitis media, with congestive hyperæmia, after Bier, 526. HENRICI: Further experiences in primary bone tuberculosis of the mastoid process in children, 527. G. ALEXANDER: Clinic and anatomy of the ear in diseases

PAGE

of the vascular system, 528. G. ALEXANDER: Demonstration of histological specimens of cases of congenital deafness, 528. LINDT: Demonstration of microscopic specimens of a case of congenital deafmutism, 529. HOFFMANN: Case of otitic pyæmia, 529. PANSE: Clinical examination of the sense of equilibrium, 529. ESCHWEILER: Demonstration on the pathology of empyema of the frontal sinus, 530. KREBS: Caries of the medial wall of the tympanum, 531. HAUG: Conservative treatment of suppurations in the attic, 531. F. ALEXANDER: Ocular complications in diseases of the accessory nasal cavities, 532. MANASSE: Demonstration of microscopic specimens, 532.

2. **Report of the Transactions of the Section on Otology, New York Academy of Medicine.** Meeting of May 11, 1905 533

TOEPLITZ: Case of cholesteatoma, 533. DIXON: Report of a case of panotitis (published in full on pp. 479–482). Discussion, 534.

Meeting of October 12, 1905 535

MCKERNON: Sequestra of facial canal and semicircular canal, 535. HASKIN: Sequestrum of facial canal, 537. HASKIN: Perichondritis after radical operation, 538. Discussion, 538. HOPKINS: Electrolysis in Eustachian stenosis (published in full on pp. 495–501). Discussion, 540.

Report on the Progress in Otology during the Fourth Quarter of the Year 1904. By Prof. ARTHUR HARTMANN. Translated by Dr. ARNOLD KNAPP 549

Anatomy and physiology, 549. General, 550. External ear, 557. Middle ear, 558. Nervous apparatus, 574. Nose and naso-pharynx, 574. Pharynx and mouth, 581.

Book Reviews 584

III.—**Coakley's Laryngology.** By Dr. C. G. COAKLEY.

IV.—**Die Otosclerose** (Sclerosis). By Professor A. DENKER.

V.—**Die Verletzungen des Gehörorgans.** (The Injuries of the Ear.) By Professor A. PASSOW.

VI.—**Die Eiterungen des Ohrlabyrinths.** (On Suppurations of the Labyrinth.) By Professor E. P. FRIEDRICH.

Miscellaneous Notes 587

Obituary: Professor KARL GRUNERT.

Index to Authors and Subjects of Vol. XXXIV. 589
